VerbauHaken

The trench box hook is the solution

for extracting stuck trench boxes

Requirement: extraction eye

Extraction eyes are a requirement for using the hook.

10 t	960 × 400 mm	4 t	80 kg
Pulling hook capacity	Length × width	Chain hook capacity	Weight

Requirement

On boxes with welded-in plates (mount for trench box grab), pull only at the front and rear extraction eyes. Do not pull at the welded-in plate in the middle, as its hole does not go all the way through.

Technical data

Parameter	Value
Length	960 mm
Width	400 mm
Weight	80 kg

Version

Art. no.	Version
80551	Capacity 10 t / 4 t

FEATURES

Compatible with attachment adapter, page 39

- ✓ **One-person operation** by the operator
- ✓ The **operator** can **thread** the hook into the **3rd extraction eye unassisted**
- ✓ **Powerful**
- ✓ **Saves personnel** and **costs**
- ✓ **Increases safety** on the **site**
- ✓ **Short pulling distance**
- ✓ **Low-maintenance** design
- ✓ **Personnel** no longer need to stay in the **danger zone** of the **excavator**
